**Or**, customize a visit for your specific needs.

### *POWERFUL SENTENCES - Early Elementary*

Utilizing a fun, interactive game we will start with a simple sentence and answer the questions who, what, when, where, and how. Then we'll add describing words from the 5 senses and, voila! We'll make interesting sentences.

### *POWERFUL STORIES - Upper Elementary & Middle School*

An introduction to an excellent writing program for middle school and high school students by Daniel Schwabauer of Clear Water Press, this presentation is a brief, simplified version for the elementary student. We will discuss his "Five Elements of Story" and give examples from your students' favorite stories, plus one of the Bandana Acres books. The five elements are: Someone to care about, Something to want, Something to dread, the Struggle, and Something to learn.

### *INSPIRE! - Middle & High School*

Discussion of how students can accomplish anything they can dream. Sharing from personal experience, there will be a motivational poster including the following topics with student interaction: Examine what you believe about yourself, have a positive attitude & determination, avoid pitfalls, fears, and distractions, give yourself credit for trying, ask for help, set goals and break them down into bite-sized pieces.
